(59) I agree with the Pay and Accounts Officer that there is no provision under the rules for granting the licences free. I can see no reason, however, why the cost of these should not be paid for from office contingencies. The logic of the Pay and Accounts Officer on this point is not convincing. The Commissioner may accordingly be told that he cannot issue the licences free and that the cost of them may be defrayed from his office contingencies. If Audit object, they can be told that obviously the charge is one which should be borne by Government and not by the private individuals concerned and asked, if not to contingencies, to what head of account the charge should be debited.

19) Kindly see the P.U.C. and paras 41 et seq. The Office note in para 42 misses the point. The man who is actually appointed as Driver might on the Audit Officer's theory be compelled to pay for his licence, but not the Chief Officer, who is not appointed or paid as Driver, and who is merely desired to be competent to drive as a matter of public convenience. The Resident will see however from paras 59–61 of these notes that we have already informed the Commr. of Police that the cost of these licences shd be paid for from his Office Contingencies. It is clear that this will still be the case as regards the Chief Officer. The only thing doubtful is whether in view of the Audit Officer's opinion the Driver shd be made to pay for his own licence

I think however that we might maintain our previous position as regards both individuals, and I have amended the draft to meet the P.W.A.O.'s argument

There is also the following rule

A man, to be employed as a driver must be qualified, i.e. must have a license. Once he is employed the question of his qualification does not arise, & he is an employee of Govt like any other employee of a private firm or individual.

Private employers usually pay the license fees of their drivers. In what way does Govt differ & in order to escape this obligation?

I think it can stick to our contention

Sir,

I have the honour to forward herewith copies of correspondence which my predecessor had on the subject of having a telephone connection at the residence of the Sub Divisional Officer, Water Supply M.E.S., in connection with fire preventions and to state that the telephone connection is absolutely necessary. The expenditure involved will be incurred proportionately by the Municipality, the Assigned Tract and the Residency. I have therefore the honour to request that early orders may be passed sanctioning the expenditure in question in order that the matter may be placed by the President at the next meeting of the Municipal Commission.

I have the honour to be,

Sir,

Your most obedient servant,

(1)

Letter No.330/D dated 18th July 1928 from the Commissioner of Poli Civil and Military Station Bangalore to the District Magistrate, Civil and Military Station, Bangalore.

In the event of outbreak of fire it is laid down in fire orders that the first police man to use the telephone in connection with the fire is responsible for calling up the Sub Divisional Officer, Water Supply to close valves other than those in the affected area and thus obtain a bigger head of water at the scene of fire. I would point out that the Valve Superintendent lives close to St.Joseph's College and that the Sub Divisional Officer's office is in Alsur Road. When a fire call is received at the Sub Divisional Office, the subsequent procedure is apparently for a peon to proceed on foot to the Valve Superintendent house and give him the information. This naturally means a big waste of precious time in getting water for the engine and I would suggest that the Valve Superintendent's house be provided with a telephone.

SUBJECT:- Telephone connection to the residence of Sub Divisional Officer, Water supply, M.E.S. in connection with fire prevention.

I have the honour to report that considerable delay has occurred in two instances in carrying out necessary arrangements for dealing with a fire.

In order to prevent a recurrence, it is proposed to extend the existing telephone connection No.25 (office of the Sub Divisional Officer, Water Supply on Marshall Barracks) to his quarters with a switch at a annual cost of Rs. 100/-. As this is a fire prevention measure I have the honour to enquire whether the Municipal Commission is willing to bear the cost.

---

I have the honour to enclose a copy of letter No.6522 dated 9/10th July 1928 from the Garrison Engineer on the above subject and request to be informed of your views in the matter as to whether the telephone connection proposed is necessary and if so whether the Government are agreeable to bear their share of the expenditure. On hearing from you I shall have to place the matter before the Municipal Commission if necessary in respect of the Municipal share.

SUBJECT:- Amendment to Fire Order No. 35.

Sir,

As the Fire orders now stand there is no provision made for the Fire Engine being taken out to the scene of Fire, when the Engine Driver is not available without delay. I have therefore directed that Sergeant J.V. Irish, who is the chief officer of the Fire Brigade, should take out the Engine at such a time, as he has satisfied me that he is quite capable of driving it. This involves an amendment to the Fire Order No.35, which may read as follows:-

For the existing order No.35 substitute the following:-

"If for any reason the Driver is not available without delay, the Engine will be taken out by Sergeant J.V.Irish, the Chief officer of the Fire Brigade".

I request that early orders may be passed sanctioning the amendment as proposed by me above.

I have the honour to be,
Sir,
Your most obedient servant,

COMMISSIONER OF POLICE.

SUBJECT:- Registration of Fire Engine and gr
licenses to the Driver and Chief officer of the
Fire Brigade.

---:0:---

Sir,

I have the honour to invite your kind attention to the fact that the Fire Engine is at present not registered as a vehicle under Section 10 (1) of the Motor Vehicles Act and that (2) the Driver of the Engine as well as the Chief officer of the Fire Brigad who both drive the vehicle have no driving licenses hich is illegal under Section 6 of the Act.

I have, therefore, issued free licenses to the Driver A.H 'Mcpherson and the chief officer Sergeant J.V. Irish of the Reserve Police. The question now arises for determination whether the gra of free licenses is in order, regard being had to the fact that the Engine is Government property and the officers herein named ar Government servants or whether the driving license fees are payabl by Government to the Municipality.

In a similar case, viz. the case of the prison-van driver, wh is a constable in the Force deputed for this duty, I find that the man was originally granted a free license but on objection taken to it by the Audit authorities, his license fee was subsequently paid from Police contingencies to the Municipality.

As regards registration of the Engine as a vehicle, I would

point out that a third of the charges on account of the Fire Engine is borne by the Municipality and the registration might therefore be effected free, as in the case of road Engines and similar vehicles maintained by the Municipality.

I have the honour to be,

Sir,

Your most obedient servant,

S.86.24 With reference to the Proceedings No.9626 dated 15th October 1928 of the Hon'ble the Resident in Mysore sanctioning an expenditure of Rs.100 per annum for the above, I have the honour to state that when the matter was placed before the Standing Committee to-day at their meeting, the Garrison Engineer pointed out that an extension of the existing telephone connection No.25 in the office of the S.D.O. Water Supply, Marshall Barracks, to his quarters, with a switch, at an annual cost of Rs.100, was of no use and what was required was a new connection to the Valve Superintendent's house at an annual cost of Rs.200. In the circumstances, if the Government are prepared to meet their share of the increased expenditure, I shall place the matter before the Municipal Commission in respect of the Municipal share of the expenditure.

Sir,

I have the honour to inform you that a 12 volts Battery was purchased for the use of the Fire Engine locally at a cost of Rs. 140/- with cost of charging and acid at Rs. 16-8-0 - the total cost amounting to Rs. 156/8/-.

The battery was urgently required as the old one had worn out after 4 years use. The article being one of European manufacture, the Pay and Accounts Officer has held the amount under objection pending the Hon'ble the Resident's sanction.

I request therefore that necessary sanction may be kindly obtained and communicated to me so as to regularise the drawal of th amount from the Treasury.

The charge is debitable to "26 A Police-District Executive Force - supplies & Services - cost of upkeep of Fire Engine" in the current year's Budget and apportioned between Mysore Assigned Tract - Municipal and Residency Budgets in equal proportions.

With reference to your letter No:124/28 of 9
August 1928, I have the honour to state that the origin
the correspondence was a suggestion by the Commissioner
Police that valuable time was wasted when a fire occurre
through a peon proceeding on foot to the Valve Superinte
dent's house. He suggested a telephone being installed a
this house.

2. It was then stated by me that the appointment of Valve Superintendent would shortly be abolished and an all night telephone clerk kept at S.D.Os: Office.

This was incorrect. The Valve Superintendents post is unlikely to be abolished so long as the present system of water supply is used. Also sanction to a .. telephone clerk for night duty was refused on the grounds that a telephone extension to S.D.Os: house would be .. cheaper.

3. As long as the Valve Superintendent exists neither proposal in para 2 will be of any benefit.

The alternatives seem to be, either to instal a telephone at the Valve Superintendent's Quarters as .. already suggested or to provide a bicycle for use of a messenger from S.D.O's: Office to Valve Superintendent's house. The former would be the more satisfactory because with the latter it means using a man who normally works by day to act as messenger between S.D.Os: Office and Val Superintendent's house at night.

Sir,

Subject:- Registration of Fire Engine and grant of driving licens to the Driver and the Chief Officer of the Fire Brigade.

Sir,

S.R 50-flag W With reference to your Endorsement No.10053 dated the 27th
G S.R 47 October 1928 forwarding for remarks letter No.1376/G/28, dated the 9th October 1928, from the Commissioner of Police, Bangalore, on th above subject, I have the honor to reply as follows:-

The Bangalore (Civil and Military Station) Motor Vehicles Rules have been enacted under Section 11 of the Motor Vehicles Act of 1914, which, among other things, empowers the Local Government, to prescribe the authority by which, and the conditions subject to which drivers of motor vehicles or any class of such drivers may be licensed, the fees payable in respect of such licenses, etc., (Vide section 11(c) of the Act). The Rules do not exempt any person from paying the fee prescribed for the grant of a driving license. The grant of a free license does not therefore appear to be in order.

C flag C Under Section 6 of the Act, no person shall drive a motor vehicle in a public place unless he is licensed in the prescribed manner and no owner or person in charge of a motor vehicle shall allow any person who is not so licensed, to drive it. Rule 19 of page 9 of Rules flag N the Bangalore Motor Vehicles Rules permits of a license being granted

granted to a person who can satisfy the licensing authority that he is a competent and careful driver. It appears therefore that before one can be entertained as a driver, he must be in possession of a license to prove his competency in driving, and if that is so, it seems that license fee should be met by the drivers ~~themsel~~ themselves and not by Government. The case of Sergeant Irish is different, because it may be held reasonably that he has to be empowered to drive in emergencies by the supply to him of a driving license at Government expense.

The license fee of the Ambulance car in the Hospital is however paid from contingencies of the Hospital, and I have asked for the opinion of the Audit Officer whether it is permissible under the rules. My own view is that it is not, as explained above The question may perhaps be kept pending until the Audit Officer's reply is received to my reference.]

Sir,

S.R. 57-e

In continuation of this office letter No.PB4-5901 dated the 26th November 1928 regarding driving license fees, I have the honor to forward herewith copies of my U.O.No.PB643 dated the 26th November 1928 to the Audit Officer and his reply thereto for favour of necessary action.

I have the honor to be,

Sir,

Your most obedient servant

PAY AND ACCOUNTS OFFICER

VDV.

Copy of U.O.No.P.B.643 dated the 24th November 1928 from the Pay and Accounts Officer, to the Audit Officer, Bangalore.

The prison-van, the fire-engine, and the ambulance car are motor vehicles owned by Government and under the Motor Vehicle Rules the drivers of these vehicles should be licensed drivers.

The license fees for the drivers of the ambulance car ar the prison van are met from contingencies and paid to the Municipa Free licenses have been granted to the driver for the fire-engine and the Chief Officer of the Fire Brigade to enable them to drive the Engine in emergencies. The question whether the granting of free licenses is in order is being taken up separately with the Secretary to the Hon'ble the Resident.

It is however doubtful whether the cost of driving licenses is a legitimate charge to Government in the case of drive of the prison-van and the ambulance car, as no person is competent to be employed as a driver unless he is licensed to drive under Rule 19 of the Bangalore (Civil and Military Station) Motor Vehicles Rules. It appears that the person who applies for and is appointed to a driver's post should be qualified for the post by holding a license and that the cost of the license should be borne by the driver himself and not by Government.

I request the favour of Audit Officer's opinion.

Copy of U.O. Bang.Audits No.1024 dated the 15th December 1928 as amended by Bang.Audits.No.1054 dated the 8th January 1929.

Reference:- U.O.P.B.643 dated the 24th November 1928 from the Pay and Accounts Officer - Driving licenses fees.

Where drivers are engaged as such by Government it would seem appropriate that the drivers should themselves bear the license charges.

DRIVING LICENSE FEES.

Sir,

With reference to your letter No.PB4/6459, dated the 16th January, 1929, I am directed to state that the Commissioner of Police has been informed in my letter No.11759, dated the 19th December, 1928, that, as there is no provision under the Motor Vehicles Rules of the Civil and Military Station of Bangalore for granting the driving licenses free, he cannot issue the licenses free nd that the cost may be defrayed from his office - ontingencies.

2. I am to point out that, even if a man must have license in order to be qualified to be <u>engaged</u> as a river, once he has been engaged the question of this ualification does not arise and he is merely an mployé of Government, just as he might be of any rivate firm or individual. Such private employers sually pay the license fees of their drivers and it eems difficult to justify the standpoint that Govern- ent should in such a matter differ from other employers

3. In the circumstances, therefore, the Resident s of opinion that the charge is one that should be

borne

borne by Government and not by the individual concerned. I am, therefore, to enquire, if not to contingencies, to what head of account the charge should be debited.

Sir,
